Prince Yadav

CREATIVE STRATEGIST & ECE ENGINEER

SUMMARY

Highly motivated **Electronics & Communication Engineering** undergraduate at DTU with hands-on experience in **visual layout design** and **full-stack product development**. Skilled in mapping modern design systems and audience pipelines. Proven ability to bridge rigorous technical infrastructure (**BaaS**) and AI-driven development (**Vibe Coding**) with top-tier digital media asset execution.

WORK EXPERIENCE

(Aug 2023 - Present)

CO-HEAD, DESIGN DEPARTMENT

NSS DTU | New Delhi

- Lead a creative department of graphic designers to execute **visual brand campaigns** for university operations.
- Drove digital outreach by restructuring **social media publication calendars**, managing consistent brand alignment.

(May 2023 - Aug 2023)

UI/UX & CONTENT CREATOR (PART-TIME)

Innovate Tech Media | Remote Freelance

- Gained practical part-time experience redesigning corporate landing pages, enhancing flow to achieve a **15% increase in user retention**.
- Authored technical publications engaging a subscriber base of **2,000+ reader accounts**.

PROJECTS

(Feb 2024 - Present)

USONLY – FULL-STACK WEB APP

- Building a full-stack platform leveraging **HTML5, CSS3, JavaScript**, and **Firebase** for real-time operations.
- Architected backend infrastructure across **Vercel and GCP**, utilizing AI to rapidly refine **cinematic UI components**.

(2024)

ECOMMERCE ADMIN OS

- Built a production-grade admin platform with **secure auth, analytics**, and a scalable **PostgreSQL backend** via Supabase.
- Rapidly styled interactive interfaces using **Next.js** and **Tailwind CSS** alongside intelligent AI integration.

(2024)

ENGINEERING PARADOX (NARRATIVE)

- Conceptualized a **cinematic storytelling series** exploring student life and ambition through cohesive branding.
- Directed content strategy and cinematic editing to bridge complex technical concepts with **broad audience appeal**.

(2024)

QR TICKETING CHATBOT (SIH 2024)

- Engineered a **real-time QR-based ticketing interface** at the Smart India Hackathon.
- Developed **automated QR code generation** mechanisms under extreme time constraints to manage scale.
